### Communication

Under the guidance of tutors, participate in group discussion work with the purpose of exchanging ideas and reaching impartial decisions on topics programmed into the course syllabus; at times, delivering conclusions in the form of a visual and verbal presentation to classmates

### Team work and Leadership

Regularly work in a team of four to six people to complete assigned projects.

Inspire and motivate team members through offering encouragement, support and displaying a 'can do' attitude

### Interest and activities

Networking, Hiking, music, pets, weekend-tech-startups
